MEMES OF THE MONTH

A Statement From Richard Tice

In recent months, both at meetings and on my Sunday shows on Talk TV, you may have heard me talk about the worrying issue of excess death numbers compared to the 5 year average in the UK.

Over 100 more people are dying per day than normal; this is in the context of some 1,650 people who sadly pass away every day across the year. This is clearly due to a range of factors.

To determine what those factors are, I have been calling for a proper, independent analysis of these deaths so that we can understand what urgent steps we may take to mitigate this.

I have been consistently clear that within this analysis, we need to urgently look at any impact that Covid vaccine side effects may be having. Indeed, I discussed that very thing just two weeks ago with a world leading oncologist on my show, who is concerned about the impact of the booster on certain cancers, based on what he is seeing with some of his patients.

We have to look at the data across all these areas for the unintended consequences.

The majority of well qualified medics and scientists are robust in their view that the vaccines are safe and effective, but there is a growing group of eminent and well qualified experts who are very concerned about some of the emerging data. Be in no doubt that I share their concerns.

Like most of us, I am not an expert in this area, but we must have the courage to look independently at the data and then take difficult decisions if needs be.

The British people are made of tough stuff and for as long as I'm the Leader of Reform UK, our default position will always be to protect their right to choose. Our role in this as a political party is to fight to give as much independent, unfiltered information as possible; to do everything we can to facilitate an informed choice.

In my view this is the credible approach.

Thank you for your continued support,

Richard Tice
Reform UK Leader

Bedfordshire County Overview

In Bedfordshire we are moving forwards.

We have 6 constituencies in Bedfordshire, Mid Bedfordshire, Luton South, Luton North, South West Bedfordshire & North East Bedfordshire which have spokespeople in place and the Bedford constituency for which we have an application currently going through the approval process.

We are building a strong team across Bedfordshire. Our newer spokespeople are busy creating their websites, writing content, designing leaflets and preparing their campaigns as well as preparing their local campaigns for May.

We have held pop up stalls across Bedfordshire. Keep an eye out in your local area for one of our stalls near you.

Stalls are a great opportunity for us to talk with local residents, discuss their concerns, and engage with our supporters.

As the year progresses we will be running stalls across the county in all our constituencies.

Each spokesperson will announce where they are going to be via their Facebook pages so, please follow the page for the spokesperson for your constituency.

Across all 6 Bedfordshire constituencies we are building up teams of volunteers and helpers.

Across Bedfordshire we have begun leaflet deliveries, helping to spread the word and our messaging to every household in the county.

We are in the process of planning another local event in Bedfordshire with another high-profile speaker as our special guest. Once we have the event details confirmed we will let you know how you can get tickets.

Our Bedfordshire spokespeople are determined to move the dial and have an impact on local and national politics. Your continued support is essential to our progress and is very much appreciated.

If you want to get involved & help us to make a difference, you can assist us; delivering leaflets, manning our pop-up stalls or standing as a local councillor in the local May elections which are happening across Bedford, North East Bedfordshire, Mid Bedfordshire & Luton in May 2023.

Please email bedfordshire@reformuk.com and let us know how you are willing to help.

We are looking for 147 candidates to stand for us so we have the Reform Party on every ballot in the county. You can help us to make this happen.

SPOKESPERSON SPOTLIGHT

My name is Beverley England and I am the spokesperson for South Suffolk, currently living on the border of South East Cambs and South Suffolk.

Every day you will see me walking my black Labrador either around my local neighbourhood or to avoid the muddy fields I will sometimes drive up to the beaches in North Norfolk.

For the past 30 years I've run my own interiors business, working on some prestigious projects including the Houses of Parliament and yes, I was involved with the supply of £200 rolls of wallcoverings many years ago!

The media whipped up a storm but the truth is, it was a restoration project of the most famous Grade II* building and the Lord Chancellor wanted to constrain the press with new privacy laws hence the backlash.

In my opinion, the press have an awful lot to answer for today – it's apparent they're not independent.

The lack of honest reporting by MSM seems likely due to the 'Trusted News Initiative', instigated by the BBC in 2019 (tax payer funded) and it appears to be a cartel of broadcasters who are controlling the narrative and now facing an anti-trust lawsuit in the USA brought by Robert Kennedy/Children's Health Defence for 'collusively censoring online news' . . . this needs to be brought to everyone's attention.

Having never stuck my head above the parapet to represent a political party, I'm doing so now as I passionately believe we deserve better – better politicians, fiscal policies, infrastructure, education, healthcare, policing, transparency of government . . . the list goes on.

Instead of 'career politicians' who seemingly enter politics for personal gain, it's vital now that the people of the UK are represented by honest, hard working individuals, who, like themselves have run a business, a home, brought up children, paid the bills through hard earned taxed income.

The Covid/PPE contracts debacle, has shone a bright light on the corruption of our political classes – it's rotten to the core.

Government have totally forgotten that they represent us, the voting public, and not private companies who successfully lobby to get favourable terms and contracts on the 'nod'.

The public/private partnership is a disaster and should be dismantled. The current ruinous state of the country and politics is not what I want my son or nieces to inherit so I'm going to do what I can to change it and Reform UK have the right policies.

I started campaigning for Reform UK in October, with my first street stall set up in Clare, followed on with stalls in Hadleigh and Sudbury.

Feedback was 100% positive from locals and also from signed up supporters who made the effort to come and find me with offers of help for leafleting and future events. Interestingly the public commented they never see their local Con MP, he doesn't seem keen to be seen on the streets!

Another way I've been meeting supporters is to set up pub meetings 'talking pints' – clearly an idea I've pinched from Nigel Farage and GB News! The landlords welcome the booking of a couple of tables on a quiet night and it's an informal way of meeting locals and finding out about their concerns. The overriding feedback from these events is relief - that there is at last a party now which represents the people and their concerns with sane policies.

Social media is helpful, so Instagram and Facebook enables me to publicise events and views:

Insta: reform_uk_south_suffolk
FB: Reform UK South Suffolk

I'm looking forward to campaigning in 2023, onwards and upwards!

Regional View

Hi, New and regular subscribers,

Our Eastern Region Reformer, like our Party, continues to grow week after week.

We are regularly polling 8 or 9%, which in a lot of Polls makes us the third Party above both the Green Party and the LibDems. This is a great achievement for a Party that is less than two years old. We are not being complacent and, of course, we still have a lot of hard work to do. But we do love a challenge. We also need the support of each and every one of you. You can share official Party content from these Facebook Pages:

Reform UK - when sharing from this Page please look for the blue tick next to the name, there is a fake one out there.

Richard Tice

Across the Region we have Constituency Spokesmen and women out and about, arranging meetings, doing street stalls, door knocking and delivering leaflets.

Each County has its own Facebook page as well a page for the Region, you can follow us at:

- Reform UK – Eastern Region**
- Reform UK – Bedfordshire**
- Reform UK – Cambridgeshire**
- Reform UK – Essex**
- Reform Hertfordshire**
- Reform UK Norfolk**
- Reform UK Suffolk**

Constituency Spokesmen and women will also set up Constituency based social media. We will see many more Spokespeople across the Region soon.

As I write this, the search continues for new County Organisers in Cambridgeshire and Suffolk continues, the response from Suffolk, in particular, has been excellent.

There is still time to add your name to the list, if you are interested.

You Can Help

1. Follow, Share & Like

The more people follow, share & like our social media content, the more people we will reach across the country.

We have social media accounts on all platforms from the Party Headquarters, our leaders; Richard Tice & David Bull, regional teams, county teams and constituency spokespeople.

Some accounts are not in place yet, but in the coming weeks we will have a full compliment of spokespeople with active social media.

Every engagement helps us; every share, like, retweet and follow will increase our reach & our support.

Please follow the relevant accounts for your region and share all the content that you can.

We have accounts on Facebook, Twitter, Instagram, YouTube, TikTok & GETTR Supporting our social media content is a great way to support the Reform Party and is very easy to do.

Just set up accounts on all the social media platforms, find people you know and connect with them, follow all the National & local Reform Party pages & start liking and sharing their posts.

2. Volunteer To Help

We will soon have spokespeople appointed in 630 constituencies across the UK. We are not contesting Northern Ireland, but we will be standing in every other seat.

Each spokesperson is in the process of building a team of volunteers to help them to campaign across their constituency. Your help and assistance is vital to their campaigns.

Your contribution however big or small will help them to achieve their goal of being able to represent you and the common sense policies that every Reform Party spokesperson stands for.

Our spokespeople will be delivering leaflets across their constituencies, running pop-up stalls on high streets, knocking on doors to talk with voters and running events in your area.

Many hands make light work and by volunteering you will be assisting your local spokesperson to reach more people and gain more votes.

If you would like to volunteer, please contact your county coordinator in the first instance via email and they will put you in touch with your spokesperson.

3. Stand in Local Elections

Our aim as a Party is to stand a candidate in every ward in the local elections on May 4th 2023.

We only have a few months to fill the hundreds of vacancies we have across the Eastern Region, so time is of the essence.

If you would like to play your part and help contribute to our success then there has never been a better time to get involved.

Please contact your county coordinator via email for more information, or alternatively, go to <https://www.reformparty.uk> and you will find a menu link to the local candidate application form.

You will receive support and training to help you in your ward.

Winning some seats in the upcoming local elections is an important stepping stone on our path to parliamentary success.

The more people that see our name on the ballot, the more we will grow as a Party.

There has never been a better time to get involved. Anything you can contribute to our collective efforts will push us further forwards.

Why Should You Get Involved?

Personally, I got involved because I was fed up with feeling angry and anxious every time I watched the news. Since then I feel much more positive, that we can make a difference, that we can be the change that the country needs.

I say "don't get angry, get active". Get involved and become part of an exciting, fast growing, positive political party offering common sense solutions for the people of the UK.

Readers Letters

Political thoughts for the season: - It is a fact universally acknowledged that all societies need to have a set of comprehensive rules that we all feel comfortable with, and mostly they work. They embed themselves into society as norms, we all take them for granted and everybody is satisfied, until that is until the government of the day ceases to govern.

When this happens then those very rules that enable us to negotiate the interactions between the government and the governed break down and the rules that are supposed to make it easy for us, become roadblocks and that is what is happening now I think. Its not a pretty sight and everybody is becoming increasingly cross about it, which can be seen clearly if you think about the two following points:-

- All societies tax their citizens, and all governments gather the tax in, if it is then used to provide first class services for those citizens and to safeguard their society, it is tax. If, however it is taken and provides neither of those things then it has become just legalised theft hasn't it?

Rather like the £160+ billion annually for a health system that has never worked for the benefit of the people who use it.

- All societies make rules for their citizens, most people try to obey them because it is obvious that they are largely for the benefit of those citizens. If, however it is made difficult, not to say often impossible to obey those rules, such as getting a passport or driving licence renewed, getting a payment for a pre-paid meter from an energy supplier, getting a phone call to an organisation answered by a real person in under an hour, then the benefit to the citizen is non-existent and the rules become mere self-interested coercion don't they?

This seems to be where our country is stuck now, it doesn't work and it never will.
